Can. Coast.

Have had bad weather thick
and rainy first then a
heavy gale from the S. W.
for four days under goose
winged main topsail.
Feb. 2.

Foggy weather with strong
wind from S. W. under
doubled reefed topsails
have seen nothing but one
grampas.

Long. 50° 05'. Tuesday, Feb. 10. Lat. 38° 47'.
Fine weather with light breeze
from the N at 6 a.m. raised
four spruce sails going N.E.
and one S.W. chased the one going
S.W. and got him made 110. m.

Bergue. C.W. Morgan Capt. Ellis.

Long. 49° 50' Tuesday Feb. 18. Lat. 39° 47'

Cloudy weather, with no wind in the morning but choppy sea. an. at 5 a.m. raised four large sperm whales going S.W. lowered and the mate took one head and head but the whale heard the boat and lolled from the boat but struck with one row. the whale row and pounded heavy so that our boats could get fast row dragged in about half an hour.

We chased on and I went on but my boat steered missed him. so got none. Sappho.

Lat. 38° 44' March 1. Long. 43° 34'

Got true or look raised a large school of small sperm whales going to the S.W. lowered four boats and got three whales
 Lt. B. M.B. B.B. made 40 bls.

Bark. C. W. Morgan. Capt. Ellis.
Lat. 80° March 13th Long. 7°

To day it is thick raining
weather, with variable winds
from the S to N.W.
ships steering E.N.E. are
getting ready to go in port.
passing down buckets shore
boat and so forth.

Long. $5^{\circ} 13'$ Sunday Mar. 16. Lat. $27^{\circ} 51'$

Fine weather with light
breezes from the S.E. ships
steering E.N.E. At sunrise
raised a school of bull whales
going to the N.E. lowered four
boats B.B. and J.B. boats
negaton and both missed.
Then came on board and
after noon lowered again
and L.B. at night
Whale made 25. bls.

My boatsteerer has missed
three good chances. The last
one was not more than $1\frac{1}{2}$ fathoms
from the boat, his iron pitched

Buck. C. H. Morgan. Capt. Tom. Ellis.

right ~~away~~ down by the whales lower
ridge. The one before that was
a 100 bbl whale his rime struck
the whale but pitched clear over
where his rime struck was not
over 2 fathoms at the most. a good
chance for the second but darted
against his case that is enough
for snake or man sick. The first
was a humpback darted a
pieces gun clear over him the
pole did not touch or any
thing else. right square off
and one as could be they was
all poor chances of a warke.

So now good bye if I never get
a whale it will not make much
difference. Yours anss.

Thursday April 24.

Sunday. Dec 4th 1882.

Lat. 19° 15' N Long. 160-16° W

This day good weather with strong
trade. At noon, raised a school
of Small sperm Whales lured
five boats and the W.B. struck
one which made 3 bls of oil.

For on this long day hard but
at first but hope for better.

Dec 15th 1883.

To day we are off Green Island with
plenty of rain. Have been to several
Islands in the Marshal Group but could
not get much very good Islands but
at Draggaskills found plenty of fruit
and hats Coconuts &c.

Green Bay to go to the north

124
Hanson & Co. Green Bay, Wisconsin.
March 30th 1883.

To Black Rock for Leat's Wife
This is rather a hard ground the
muzzle on but a good place for
whaler we have been here ten days
on a new whaler, turning one day
got three whalers that made 1750
lbs more mated with Rock Paint
and she missed the whole regent
nothing left here the 17th for the
or the had a very rugged passage
by the Cape and bearing the
drift 300 lead off about the
end of bearing range between the
Islands made the ice April 18
in Lat. 60° 30' Long. 166° 00' there
abruptly sank into the ice twenty
miles then wind hurried her to
drifted off byt lost some copper
April 18th continuing blowing
and snowing for N.E. ship
on slipper on a stake under
stern stay sail
Nothing more this day

August 18th Fleetwing

This day we are at anchor off Point Belcher have been laying about here for two weeks. The scattering ice is from 8 to 10 miles off shore about 18 ships around here and the rest of the fleet are to Point Barrow or further. I stay here long enough for you there will be whales here about next Dec.

Aug. 20th Got to Point Barrow. The first whale seen on 25 we left for I the 27 got as far as Cape Smith then wind hauled so come to anchor it came on the blow in the night with plenty of ice coming came near going on shore but the ice grounded out side of us, floated in about the 17 feet of water.

Left Cape I the 28 came to anchor of sea horses. Left here the 29 left first for Westward. Saw whales. Left 3 Long. 163° up to the ice left everything along the ice until Sept. 30 Got to (Geraldale.) bearing NW 40 miles saw whales most every day but could not strike them. Got on the 24.

Learned 20 things for whales this season

Best Fleetwing. H. my mother.
 but it seemed impossible to get on
 a good many times there was not the
 least chance any one could see before we
 cornered. Oct. 2 blowes and snowed this
 day so kept her headed S.E. with a
 N.W. gale. Had head winds passed
 Diomedes the 12 of Oct. Made St. Matthews
 the 19 left there the 20th with N.W. winds
 for Oona man. came through the 23
 a very good passage if you are sure you are
 right. but I should prefer 22 take it all
 together had light wind the 24 but 25 are
 heading E with fresh S.W. wind.

W. J. Gherkeley having taken more
 whales and there will then only
 Boat in the ship.

Season of 1885
Commanded Rk J. A. C. Howland
in the Arctic took Seven Whales
12,500 lbs of Bone. 120 sperm.

Season of 1886
Left the ship sick in Honolulu
and went home.

Season of 1887. February
Took command of Rk J. A. C. Howland
for Arctic, At Honolulu Feb 26.
March 15. Saw Sperm Whales
Lat 36 - 30 N. Long. 177 - 40 W. got 20 bbls. 180 sperm
Took 12,200 lbs of Bone & 11 bls

1888
Went to the Arctic took 14,500 lbs
of Bone. 7 Whales 130 sperm

1890

Commanded Rk Tanner Lane took 9
Right Whales & a Bowhead 100 sperm

1892

Commanded Rk James Wilson no luck yet.
